外部電源に13.8V出力端子が出てない場合のひとつの対処例です。 リグ用外部電源のケーブルにギボシ端子付き短ワイヤーをはんだ付けします。

One solution for HAMSTIR photo connection power supply in case of 13.8V power supply doesn't have external output terminals.

Use the bullet terminal, and solder it at the half way of 13.8V power supply cable. Take the terminal covered by larger tube to +13.8V red cable.
